PROFILE SUMMARY

I have recently graduated from the [#1 web development bootcamp in the world](#), Le Wagon. I am now a [Full-stack web developer](#) looking for an exciting and challenging opportunity to utilise my skills and make an impact. [Entrepreneurial by nature](#), I love problem solving, building and developing projects from the ground up and to continue learning about new technologies, programming languages and frameworks. Most recently, I [co-founded a successful award winning property services business](#) with my wife and business partner managing a number of multinational clients and a team of 10.

PROFESSIONAL SKILLS

- Ruby
- Ruby on Rails
- Javascript
- PostgreSQL
- Git
- HTML
- CSS
- Bootstrap
- Heroku
- Github

EDUCATION

LE WAGON

Fullstack Developer Bootcamp

Attended Le Wagon London (Batch #423).9-week intensive coding bootcamp learning HTML, CSS, Bootstrap, JavaScript,SQL, git, GitHub, Heroku and Ruby on Rails.

HARVARD UNIVERSITY

CS50X online computer science course

I am currently taking this free 11 week online course to learn how to think algorithmically and solve programming problems efficiently.Key concepts learned :Abstraction, algorithms, data structures, encapsulation, resource management, security, software engineering and web development.

Languages covered

- : C
- PHP
- JavaScript
- plus SQL, CSS, and HTML.

UNIVERSITY OF BEDFORDSHIRE

Music Technology Bsc

This course covered a wide spectrum of areas of Music Technology from the fundamentals of sound, computer programming for musical applications and MIDI production.

OTHER INTERESTS

During my spare time, I help run a bi-monthly tabletop gaming club and enjoy playing several gaming systems both cooperatively and competitively.

PROJECTS

QuickfeedR (currently in progress)

A job posting recruitment dashboard built with Ruby on Rails. This project features JavaScript, HTML and CSS .

High end wheels

A market place MVC application for high end cars. This project served as a good introduction to working with Ruby Gems and API's, notably Device, OmniAuth, Cloudinary and the Mapbox API. You can view the deployed version [here](#) and the code here - 

Mr Cocktails

A cocktail creation and listing application built with Ruby on Rails and hosted on the cloud platform Heroku. This project was used to practically apply CRUD actions as well as an introduction to agile processes. You can view the deployed version [here](#) and the code here - 

WORK SUMMARY

CO-FOUNDER

North London Inventories 2016-2020

- Founded a successful and award winning residential property business focusing on creating high quality independent inventory reports for property developers, estate agents, housing associations and private Landlords. I launched North London Inventories along side my wife in 2017 and have since grown it into a profitable business with a 6 figure turnover and employing a full time team of 10.
- Key responsibilities
- Identifying and establishing market opportunities within the residential property market
- Build and develop multiple sales channels across nation wide corporations, local business and government to hedge the risk of relying on one market segment
- Recruited and managed a high performing team which consisted of full time, contract and remotely based staff
- Solely responsible for all day to day client interactions and account management
- Create high impact branding and marketing strategies to target new business opportunities
- Designed and maintained all business processes and work flows to maximise efficiency and productivity
